introduction.

Matherson Crane Hire (MCH) was established in Gladstone by Neil and Beth Matherson in 1980.

With Neil's expertise, MCH established a solid reputation in the Central Qld region for safety and reliability.

In 2009, after 29 years in the business, Neil and Beth retired, and passed the business on to the next generation. Wayne Matherson now operates Matherson Crane Hire along with a team of competent and professional Operators and riggers.

The company is proud of it's reputation for safety and reliability and the team at MCH takes pride in every job carried out.

Environmental Policy

Matherson Crane Hire endeavours to operate in an environmentally responsible manner in accordance with legislative and regulatory requirements and local bylaws.

To maintain environmentally responsible business practices, Matherson Crane Hire will seek assistance from all employees to minimise and reduce waste, re-use packaging, and recycle where possible.

We seek to continually improve our environmental performance through risk identification, assessment and control. Good environmental and waste management practices are integrated into our work procedures, OH&S training and administrative systems.

Safety Policy

Matherson Crane Hire is committed to achieving the highest standard of safety performance. We are committed to creating and maintaining a safe work place for all personnel. All of our employees undergo regular Verification of Competency Assessments.

Every job we accept is carried out in accordance with the relevant statutory regulations, including, but not limited to:

- Queensland Work Health & Safety Act 2011 and Work Health & Safety Regulation 2011
- Mobile Crane Code of Practice
- All our cranes are CraneSafe approved and carry a CraneSafe Registration Certificate and "Green Sticker"

Quality Statement

Matherson Crane Hire prides itself on the ability to get the job done. We are a Member of the Crane Industry Council of Australia (CICA), the nationally recognised Authority for the development of a safe and effective Australian Crane Industry.

Our certified and experienced operators and riggers will:

- Arrive prepared for site with a full complement of lifting gear on board at all times.
- Carry out multiple crane lifts
- Offer lifting solutions / lift plans
- lift studies
- Provide and operate superior equipment
- Provide high quality products and services to meet customers expectations
